

# WORKWEAR

Over the years the workwear line has gained confidence and popularity among the most demanding professionals.

The success of the product has translated into the ongoing development and expansion of the range.

The items of clothing produced by Beta Utensili S.p.a. comply with the following standard:

## EN ISO 13688:2013

Personal protective equipment protects the user from limited physical hazards, including small abrasions, sunbeams, wind, cold, non-harmful powders and dirt from nontoxic materials. Such protection is related to the first category of Italian Parliamentary Bill n°. 475 of 04/12/1992.

## USE AND STORAGE INSTRUCTIONS

The garment should be worn correctly, so that it can protect the user's body parts. It should be stored in a cool, dry place, in its original packaging, away from heat sources, sunlight, dust and adverse weather.

## SHRINKAGE

All natural fibres shrink after being washed. The degree of shrinkage may range from 1% to 5%, depending on several parameters, which include the type of fibres and the temperature of water.

## SEASONAL PRODUCTS

In order to ensure that the most appropriate articles are available at any moment of the year, our workwear collection has been divided into three seasonal lines:

**SPRING-SUMMER:** Available from March to September, it comprises lightweight, breathable items.

**AUTUMN-WINTER:** Available from September to March, it comprises warm, hard-wearing garments, perfect for withstanding harsh temperatures.

**ALL-SEASON** Suitable for wearing throughout the year, this line comprises versatile, practical items, synonymous with unparalleled comfort in any season.

Each line blends quality with convenience and design, to answer the particular needs arising from every period of the year.
